WHO WE ARE

The company was established in 2020, believing in the importance of technological transformation in this era. The Symbol Company provides its top-notch technological services at the highest level of quality and security according to global standards. This is achieved through safe programming and design of websites, mobile applications, and electronic stores of various types, in addition to website penetration testing and security assessment. All of these services are provided by highly efficient Saudi youth in this field, who hold academic certificates and extensive experience.

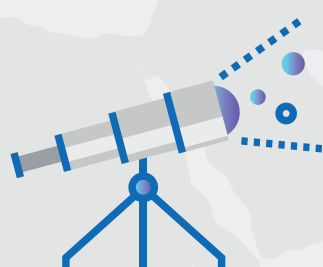

Our message..

We aim to provide innovative technological services and solutions that meet and satisfy our clients, and to transform ideas into a secure technological reality in line with the vision of the Kingdom.

Our vision..

To be one of the leading information technology companies that offer various technological solutions within the Kingdom of Saudi Arabia and beyond, to meet all the aspirations of clients through local expertise.

Our values..

Continuous development.

Innovating technological solutions with creative ideas.

Quality and speed in execution.

Customer satisfaction is our top priority at the Symbol Company, and we strive for it by all possible means.
